

Install CTeX package.

Download the required packages.

<https://www.ctan.org/pkg>

Unzip and compile manually if needed..

Unzip the downloaded file and jump to the directory after unzip.

If need compile, run `pdflatex ***.ins`

Install.

Copy the compiled file folder to the CTeX path: `/C-Tex/CTex/tex/latex`

`texhash -admin`

Summary

Compile it if there are no .tex file in the unzipped folder. Thanks to https://blog.csdn.net/Myriad_Dreamin/article/details/83384110
